# UNIVERSITY CENTER

The University Center is located on the top floor of the College Nine/Ten Dining Hall Commons. Colleges Nine and Ten are located off of McLaughlin Drive, across from the Cowell Health Center.

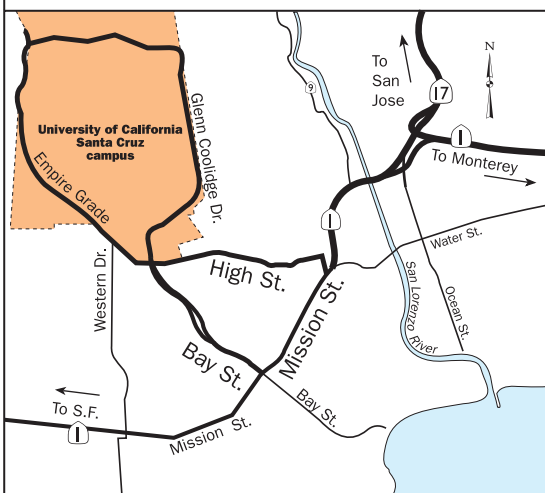

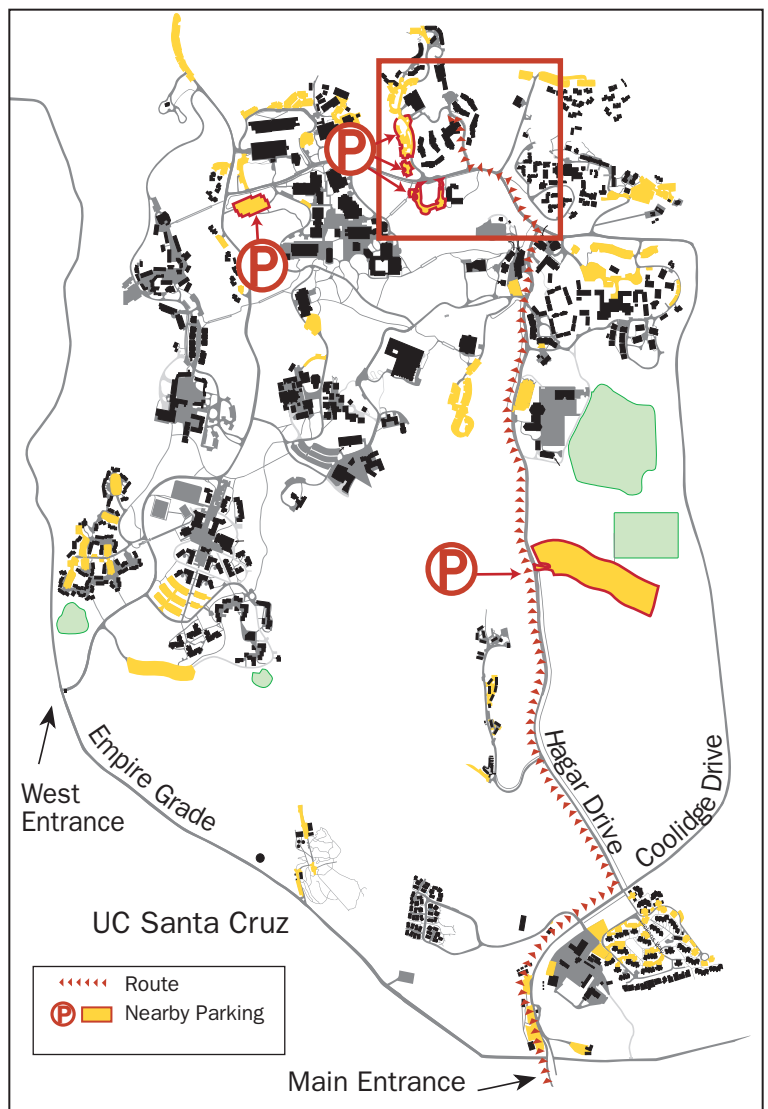

Those walking or arriving by Metro bus or campus shuttle can follow the wheelchair-accessible path from the bus stop.

For those driving, there are several parking options, but please keep in mind that nearby parking is extremely limited; you may find it easier to park in either the Core West Parking Structure or the East Remote lot and take a campus shuttle.

There is parking available in small lots along the College Ten service road. Permits are required in these lots 24 hours a day, seven days a week." There is also a small lot across McLaughlin Drive at the Cowell Health Center; eight metered spaces are available there. The parking structure has 19 Pay Station spaces available to guests and short-term parkers, for up to two hours. When parking in these spaces, payment is made with cash or credit card to the pay station located next to the elevator on the second level of the structure.

The closest accessible parking spaces are just north of the University Center on the College Nine service road; there are several more just off the College Ten service road.

Lot designations are subject to change; it is advisable to check the permit requirements posted at parking lot entrances when parking on campus. One-day visitor permits may be purchased at the main entrance kiosk or at the TAPS Sales Office (located in the H Barn at the base of campus). Parking meters are posted regarding hours of enforcement.
